

11'6" Light Surf Series

Light, strong and wippy are the outstanding features of this two piece rod. The sensitive tip allows for maximum hookups while the mid and base strength of the rod means that the bigger Dart or Surf

Tailor & Bream are easy prey.

This rod comes with a quality bag for storage and extra guides for load sharing.

D1072 \$49.95

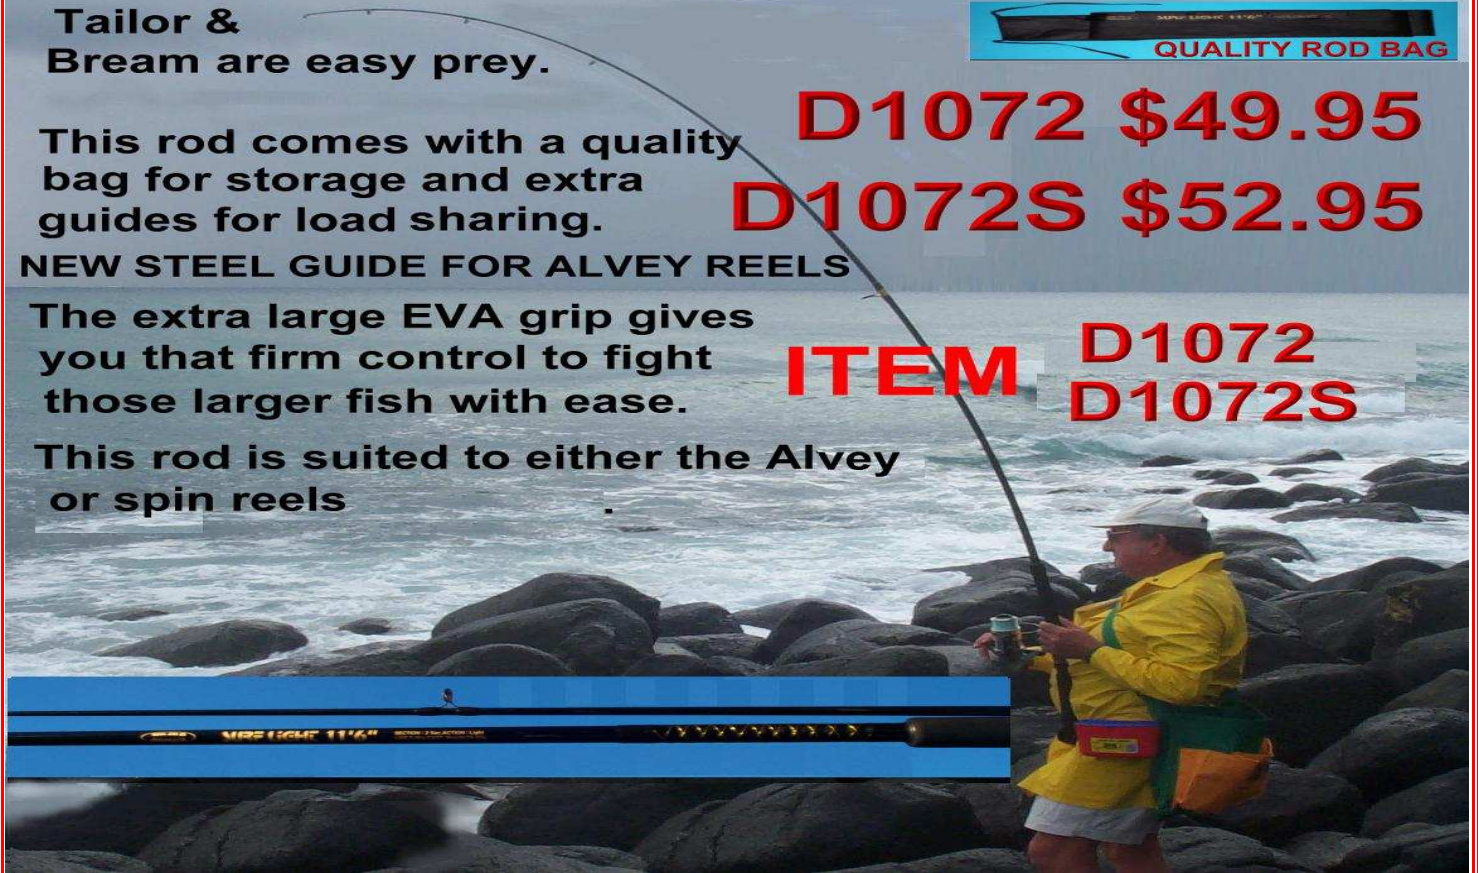

D1072S \$52.95

NEW STEEL GUIDE FOR ALVEY REELS

The extra large EVA grip gives you that firm control to fight those larger fish with ease.

ITEM D1072 D1072S

This rod is suited to either the Alvey or spin reels

REEL-EM-IN 6'6" REEF & 5'6" BAY & REEF

State of the art technology is displayed here in this glass fibre rod blank with a epoxy Carbon wrap for Extra strength.

The glass fibre blank is cross wrapped with the latest carbon fibre to give exceptional pulling strength without losing the sensitive tip action.

This one piece rod was designed for bottom bouncing with extra SCI guides for extra load sharing and comes complete with a rod bag for storage
