

REEL EM IN PELAGIC SERIES

8' PELAGIC: The stand out feature of this rod is the Carbon Woven material wrapped over the glass fibre blank giving powerful pulling strength, without compromising a sensitive tip action. This one piece rod has extra SCI guides for even load sharing and is supplied with a quality rod bag. Spanish Mackerel, Cobia and GT's are easy prey for this hard fighting rod.

The rod was designed to be used with the HA6000 or the alvey 600B.

The SCI guides are placed so that they share the load over the entire rod.

This Two piece rod comes complete with a rod bag for easy storage.
